A MESSAGE FROM THE CHAIRMAN

The Depository Library Program was created by the Congress in order to promote the American public's awareness of the activities of our Federal Government. Under this program, nearly 1,400 libraries distributed throughout our country receive Federal Government publications free of charge, and in return pledge to provide free access to all library patrons. The Joint Committee on Printing enthusiastically supports this program and encourages all citizens to avail themselves of this valuable resource.

This publication is issued as an aid to the use of Depository Libraries. On behalf of the Members of the Joint Committee, I hope that you will find it helpful in your search for information on these activities.

WENDELL H. FORD,
Chairman, Joint Committee on Printing.

Section I.—Government Depository Libraries

LEGISLATIVE HISTORY

The framework of the present depository library program was established in 1857 when a resolution was passed directing that printed documents be circulated to the public through official sources. In 1859, the statutory authority and responsibility to distribute all books printed or purchased for the use of the Federal Government was given to the Secretary of the Interior, except those for the special use of the Congress or the executive departments.

In 1860, Congress established the Government Printing Office to serve its printing and binding needs as well as the needs of the Executive Branch. The Printing Act of 1895 relocated the Superintendent of Public Documents from the Department of Interior to the Government Printing Office. Today, this position continues to be an important function of the Government Printing Office in disseminating Federal information to the public through both the depository library program and publications sales program.

AUTHORIZATION

Congress established the Depository Library Program based upon three principles: 1. with certain specified exceptions, all government publications shall be made available to depository libraries; 2. depository libraries shall be located in each State and congressional district in order to make Government publications widely available; and 3. these government publications shall be available for the free use of the general public.

Chapter 19 of title 44 of the U.S. Code is the authority for the establishment and operation of the depository program. Pertinent sections affecting this program follow.

Chapter 19—DEPOSITORY LIBRARY PROGRAM

§ 1901. Definition of Government publication

"Government publication" as used in this chapter, means informational matter which is published as an individual document at Government expense, or as required by law.

§ 1902. Availability of Government publications through Superintendent of Documents; lists of publications not ordered from Government Printing Office

Government publications, except those determined by their issuing components to be required for official use only or for strictly administrative or operational purposes which have no public interest or educational value and publications classified for reasons of national security, shall be made available to depository libraries through the facilities of the Superintendent of Documents for public information. Each component of the Government shall furnish the Superintendent of Documents a list of such publications it issued during the previous month, that were obtained from sources other than the Government Printing Office.

§ 1903. Distribution of publications to depositories; notice to Government components; cost of printing and binding

Upon request of the Superintendent of Documents, components of the Government ordering the printing of publications shall either increase or decrease the number of copies of publications furnished for distribution to designated depository libraries and State libraries so that the number of copies delivered to the

Superintendent of Documents is equal to the number of libraries on the list. The number thus delivered may not be restricted by any statutory limitation in force on August 9, 1962. Copies of publications furnished the Superintendent of Documents for distribution to designated depository libraries shall include—

the journals of the Senate and House of Representatives;

all publications, not confidential in character, printed upon the requisition of a congressional committee;

Senate and House public bills and resolutions; and reports on private bills, concurrent or simple resolutions;

but not so-called cooperative publications which must necessarily be sold in order to be self-sustaining.

The Superintendent of Documents shall currently inform the components of the Government ordering printing of publications as to the number of copies of their publications required for distribution to depository libraries. The cost of printing and binding those publications distributed to depository libraries obtained elsewhere than from the Government Printing Office, shall be borne by components of the Government responsible for their issuance; those requisitioned from the Government Printing Office shall be charged to appropriations provided the Superintendent of Documents for that purpose.

§ 1904. Classified list of Government publications for selection by depositories

The Superintendent of Documents shall currently issue a classified list of Government publications in suitable form, containing annotations of contents and listed by item identification numbers to facilitate the

selection of only those publications needed by depository libraries. The selected publications shall be distributed to depository libraries in accordance with regulations of the Superintendent of Documents, as long as they fulfill the conditions provided by law.

§ 1905. Distribution to depositories; designation of additional libraries; justification; authorization for certain designations

The Government publications selected from lists prepared by the Superintendent of Documents, and when requested from him, shall be distributed to depository libraries specifically designated by law and to libraries designated by Senators, Representatives, and the Resident Commissioner from Puerto Rico, by the Commissioner of the District of Columbia,¹ and by the Governors of Guam, American Samoa, and the Virgin Islands, respectively. Additional libraries within areas served by Representatives or the Resident Commissioner from Puerto Rico may be designated by them to receive Government publications to the extent that the total number of libraries designated by them does not exceed two within each area. Not more than two additional libraries within a State may be designated by each Senator from the State. Before an additional library within a State, congressional district or the Commonwealth of Puerto Rico is designated as a depository for Government publications, the head of that library shall furnish his Senator, Representative, or the Resident Commissioner from Puerto Rico, as the case may be, with justification of the necessity for the additional designation. The justification, which shall also include a certification as to the need for the additional depository library designation, shall be signed by the head of every existing depository library within the congressional district or the Commonwealth of Puerto Rico or by the head of the library authority of the State or the Commonwealth of Puerto Rico, within which the additional depository library is to be located. The justification for additional depository library designations shall be transmitted to the Superintendent of Documents by the Senator, Representative, or the Resident Commissioner from Puerto Rico, as the case may be. The Commissioner of the District of Columbia may designate two depository libraries in the District of Columbia, the Governor of Guam and the Governor of American Samoa may each designate one depository library in Guam and American Samoa, respectively, and the Governor of the Virgin Islands may designate one depository library on the island of Saint Thomas and one on the island of Saint Croix.

TRANSFER OF FUNCTIONS

The office of Commissioner of the District of Columbia, as established under Reorg. Plan No. 3 of 1967, eff. Nov. 3, 1967 (in part), 32 F.R. 11669, 81 Stat. 948, was abolished as of noon Jan. 2, 1975, by Pub. L. 93-198, title VII, § 711, Dec. 24, 1973, 87 Stat. 818, and replaced by the office of Mayor of the District of Columbia by section 421 of Pub. L. 93-198, classified to section 1-241 of the District of Columbia Code.

District of Columbia Public Library as Depository

Act Sept. 28, 1943, ch. 243, 57 Stat. 568, provided: "That the Public Library of the District of Columbia is hereby constituted a designated depository of governmental publications, and the Superintendent of Documents shall supply to such library one copy of each such publication, in the same form as supplied to other designated depositories."

¹ See Section 1905, Transfer of Functions.

§ 1906. Land-grant colleges constituted depositories

Land-grant colleges are constituted depositories to receive Government publications subject to the depository laws.

§ 1907. Libraries of executive departments, service academies, and independent agencies constituted depositories; certifications of need; disposal of unwanted publications

The libraries of the executive departments, of the United States Military Academy, of the United States Naval Academy, of the United States Air Force Academy, of the United States Coast Guard Academy, and of the United States Merchant Marine Academy are designated depositories of Government publications. A depository library within each independent agency may be designated upon certification of need by the head of the independent agency to the Superintendent of Documents. Additional depository libraries within executive departments and independent agencies may be designated to receive Government publications to the extent that the number so designated does not exceed the number of major bureaus or divisions of the departments and independent agencies. These designations may be made only after certification by the head of each executive department or independent agency to the Superintendent of Documents as to the justifiable need for additional depository libraries. Depository libraries within executive departments and independent agencies may dispose of unwanted Government publications after first offering them to the Library of Congress and the Archivist of the United States.

§ 1908. American Antiquarian Society to receive certain publications

One copy of the public journals of the Senate and of the House of Representatives, and of the documents published under the orders of the Senate and House of Representatives, respectively, shall be transmitted to the Executive of the Commonwealth of Massachusetts for the use and benefit of the American Antiquarian Society of the Commonwealth.

§ 1909. Requirements of depository libraries; reports on conditions; investigations; termination; replacement

Only a library able to provide custody and service for depository materials and located in an area where it can best serve the public need, and within an area not already adequately served by existing depository libraries may be designated by Senators, Representatives, the Resident Commissioner from Puerto Rico, the Commissioner of the District of Columbia,¹ or the Governors of Guam, American Samoa, or the Virgin Islands as a depository of Government publications. The designated depository libraries shall report to the Superintendent of Documents at least every two years concerning their condition.

The Superintendent of Documents shall make first-hand investigation of conditions for which need is indicated and include the results of investigations in his annual report. When he ascertains that the number of books in a depository library is below ten thousand, other than Government publications, or it has ceased to be maintained so as to be accessible to the public, or that the Government publications which have been

¹ See Section 1905, Transfer of Functions.

furnished the library have not been properly maintained, he shall delete the library from the list of depository libraries if the library fails to correct the unsatisfactory conditions within six months. The Representative or the Resident Commissioner from Puerto Rico in whose area the library is located or the Senator who made the designation, or a successor of the Senator, and, in the case of a library in the District of Columbia, the Commissioner of the District of Columbia, and, in the case of a library in Guam, American Samoa, or the Virgin Islands, the Governor, shall be notified and shall then be authorized to designate another library within the area served by him, which shall meet the conditions herein required, but which may not be in excess of the number of depository libraries authorized by laws within the State, district, territory, or the Commonwealth of Puerto Rico, as the case may be.

§ 1910. Designations of replacement depositories; limitations on numbers; conditions

The designation of a library to replace a depository library, other than a depository library specifically designated by law, may be made only within the limitations on total numbers specified by section 1905 of this title, and only when the library to be replaced ceases to exist, or when the library voluntarily relinquishes its depository status, or when the Superintendent of Documents determines that it no longer fulfills the conditions provided by law for depository libraries.

§ 1911. Free use of Government publications in depositories; disposal of unwanted publications

Depository libraries shall make Government publications available for the free use of the general public, and may dispose of them after retention for five years under section 1912 of this title, if the depository library is served by a regional depository library. Depository libraries not served by a regional depository library, or that are regional depository libraries themselves, shall retain Government publications permanently in either printed form or in microfacsimile form, except superseded publications or those issued later in bound form which may be discarded as authorized by the Superintendent of Documents.

§ 1912. Regional depositories; designation; functions; disposal of publications

Not more than two depository libraries in each State and the Commonwealth of Puerto Rico may be designated as regional depositories, and shall receive from the Superintendent of Documents copies of all new and revised Government publications authorized for distribution to depository libraries. Designation of regional depository libraries may be made by a Senator or the Resident Commissioner from Puerto Rico within the areas served by them, after approval by the head of the library authority of the State or the Commonwealth of Puerto Rico, as the case may be, who shall first ascertain from the head of the library to be so designated that the library will, in addition to fulfilling the requirements for depository libraries, retain at least one copy of all Government publications either in printed or microfacsimile form (except those authorized to be discarded by the Superintendent of Documents); and within the region served will provide interlibrary loan, reference service, and assistance for depository libraries in the disposal of unwanted Government publications. The agreement to function as a

regional depository library shall be transmitted to the Superintendent of Documents by the Senator or the Resident Commissioner from Puerto Rico when the designation is made.

The libraries designated as regional depositories may permit depository libraries, within the areas served by them, to dispose of Government publications which they have retained for five years after first offering them to other depository libraries within their area, then to other libraries.

§ 1913. Appropriations for supplying depository libraries; restriction

Appropriations available for the Office of Superintendent of Documents may not be used to supply depository libraries documents, books, or other printed matter not requested by them, and their requests shall be subject to approval by the Superintendent of Documents.

§ 1914. Implementation of depository library program by Public Printer

The Public Printer, with the approval of the Joint Committee on Printing, as provided by section 103 of this title, may use any measures he considers necessary for the economical and practical implementation of this chapter.

§ 1915. Highest State appellate court libraries as depository libraries

Upon the request of the highest appellate court of a State, the Public Printer is authorized to designate the library of that court as a depository library. The provisions of section 1911 of this title shall not apply to any library so designated.

§ 1916. Designation of libraries of accredited law schools as depository libraries

(a) Upon the request of any accredited law school, the Public Printer shall designate the library of such law school as a depository library. The Public Printer may not make such designation unless he determines that the library involved meets the requirements of this chapter, other than those requirements of the first undesignated paragraph of section 1909 of this title which relate to the location of such library.

(b) For purposes of this section, the term "accredited law school" means any law school which is accredited by a nationally recognized accrediting agency or association approved by the Commissioner of Education for such purpose or accredited by the highest appellate court of the State in which the law school is located.

Chapter 7—CONGRESSIONAL PRINTING AND BINDING

§ 701. "Usual number" of documents and reports; distribution of House and Senate documents and reports; binding; reports on private bills; number of copies printed; distribution

* * * * *

(c) Of the number printed, the Public Printer shall bind a sufficient number of copies for distribution as follows:

Of the House documents and reports, bound—to the Senate library, fifteen copies; to the Library of Congress, not to exceed one hundred and fifty copies, as provided by section 1718 of this title; to the House of Representatives library, fifteen copies; to the Super-

intendent of Documents, as many copies as are required for distribution to the State libraries and designated depositories.

Of the Senate documents and reports, bound—to the Senate library, fifteen copies; to the Library of Congress, copies as provided by sections 1718 and 1719 of this title; to the House of Representatives library, fifteen copies; to the Superintendent of Documents, as many copies as may be required for distribution to State libraries and designated depositories. In binding documents the Public Printer shall give precedence to those that are to be distributed to libraries and to designated depositories. But a State that may prefer to have its documents in unbound form, may do so by notifying the Superintendent of Documents to that effect prior to the convening of each Congress.

§719. Classification and numbering of publications ordered printed by Congress; designation of publications of departments; printing of committee hearings

Publications ordered printed by Congress, or either House, shall be in four series, namely:

- one series of reports made by the committees of the Senate, to be known as Senate reports;
- one series of reports made by the committees of the House of Representatives, to be known as House reports;
- one series of documents other than reports of committees, the orders for printing which originate in the Senate, to be known as Senate documents; and
- one series of documents other than committee reports, the orders for printing which originate in the House of Representatives, to be known as House documents.

The publications in each series shall be consecutively numbered, the numbers in each series continuing in unbroken sequence throughout the entire term of a Congress, but these provisions do not apply to the documents printed for the use of the Senate in executive session. Of the "usual number", the copies which are intended for distribution to State libraries and other designated depositories of annual or serial publications originating in or prepared by an executive department, bureau, office, commission, or board may not be numbered in the document or report series of either House of Congress, but shall be designated by title and bound as provided by section 738 of this title; and the departmental edition, if any, shall be printed concurrently with the "usual number." Hearings of committees may be printed as congressional documents only when specifically ordered by Congress or either House.

§738. Binding of publications for distribution to libraries

The Public Printer shall supply the Superintendent of Documents with sufficient copies of publications distributed in unbound form, to be bound and distributed

to the State libraries and other designated depositories for their permanent files. Every publication of sufficient size on any one subject shall be bound separately and receive the title suggested by the subject of the volume, and the others shall be distributed in unbound form as soon as printed. The library edition, as well as all other bound sets of congressional numbered documents and reports, shall be arranged in volumes and bound in the manner directed by the Joint Committee on Printing.

Chapter 9—CONGRESSIONAL RECORD

§906. Congressional Record: gratuitous copies; delivery

The Public Printer shall furnish the Congressional Record only as follows:

* * * * *

to the Superintendent of Documents, as many daily and bound copies as may be required for distribution to depository libraries;

* * * * *

Chapter 17—DISTRIBUTION AND SALE OF PUBLIC DOCUMENTS

§1710. Index of documents: number and distribution

The Superintendent of Documents, at the close of each regular session of Congress, shall prepare and publish a comprehensive index of public documents, upon a plan approved by the Joint Committee on Printing. The Public Printer shall, immediately upon its publication, deliver to him a copy of every document printed by the Government Printing Office. The head of each executive department, independent agency and establishment of the Government shall deliver to him a copy of every document issued or published by the department, bureau, or office not confidential in character. He shall also prepare and print in one volume a consolidated index of Congressional documents, and shall index single volumes of documents as the Joint Committee on Printing directs. Two thousand copies each of the comprehensive index and of the consolidated index shall be printed and bound in addition to the usual number, two hundred for the Senate, eight hundred for the House of Representatives and one thousand for distribution by the Superintendent of Documents.

§1711. Catalog of Government publications

On the first day of each month the Superintendent of Documents shall prepare a catalog of Government publications which shall show the documents printed during the preceding month, where obtainable, and the price. Two thousand copies of the catalog shall be printed in pamphlet form for distribution.
